POSTGRADUATE COURSE

SURGERY FOR ACHALASIA DAY

European Foregut Society (EFS) provides specialized platform for the understanding, diagnostics and treatment of foregut disease. Achalasia still represents clinical challenge starting from proper diagnosis to treatment strategies.

Surgery for Achalasia Day is designed as clinical immersion course with the goal to bring European leading experts in the field of foregut together with the participants interested to get best practical and theoretical overview of surgical technique for achalasia.

One-day course will include theoretical lectures, live surgery and interactive discussion with the experts.
